

MOTOROLA G71

One of the leading and most profound brands in mobile and gadget industry “ **Motorola**” is coming in 2022 with its brand new and amazing 5G mobile set “**Motorola G71**”.

The price of Motorola G71 is set to be 18,999 in India and this set is coming with Snapdragon 695 chipset with 50-megapixel camera and 5000 mAh battery. Since India is moving towards 5G so Motorola has launched this phone with 5G and the only smartphone with this chipset. The design of this smartphone is very comfortable and lightweight. This smartphone comes with IP52 water resistance and 6.4inch AMOLED display. The smartphone has a Dolby Atmos access and with a refresh rate of 60 Hz makes this smartphone unique. The camera comprises with 50-megapixel primary camera and 8-megapixel depth camera and 2 megapixel macro camera.

This smartphone comes with two colours (Arctic blue and green) with 13 5G bands with only one variant of 6GB RAM and 128GB ROM and dual nano SIM card slot.

It supports dual 4G VoLTE SIM, Wi-Fi calling, Bluetooth 5.0, dual band Wi-Fi and NFC support is also covered within this phone.

IP52 and 3.5 mm jack with this smartphone makes it a very good combination.
